TH Nong Bua Lamphu · Thailand

SKILLS

Languages

C# · TypeScript · JavaScript · Java · SQL · HTML / CSS / SCSS

Frontend

Angular · React · Next.js · DevExtreme · SyncFusion · Bootstrap

Backend

.NET (C#) · RESTful API · Node.js · Spring Boot (Java) · Entity Framework

Data & BI

Tableau · SQL Server / MSSQL · Stored Procedure · Data Modeling

AI Tools

Claude · ChatGPT · Gemini · Kimi

Tools & Platform

Git & GitHub · Postman · Visual Studio / VS Code · Android Studio · Vercel · Figma

Network & Hardware

LAN / Cat6 Cabling · Router & Switch Config · Wi-Fi / Access Point · CCTV (IP / Analog) · Arduino (IoT)

WEBSITES

EDUCATION

Udon Thani Rajabhat University

Bachelor of Science — Computer Science
GPA: 3.14 / 4.00

2017–2021

Relevant: Data Structures, OOP, Database Systems, Web Development, Networking

HIGHLIGHTS

Full Stack Developer · .NET + Angular · Next.js / React · Tableau BI · AI-Assisted Dev · Network & CCTV · 4+ Years Exp.

Software Developer

Full Stack Developer with 4+ years of hands-on experience delivering production-grade web applications across Healthcare, Energy, Insurance, and Retail sectors. Specialized in **.NET (C#) + Angular (TypeScript)** for enterprise systems, and **React / Next.js** for high-performance web. Proven track record building scalable **RESTful APIs**, advanced **Tableau** BI dashboards, and leading freelance projects end-to-end. Works daily with AI tools (**Claude**, **ChatGPT**, **Gemini**, **Kimi**) to engineer precise, logic-driven outputs, and takes on network & **CCTV** installation.

WORK EXPERIENCE

Freelance & Technical Consultant

Sep 2023 – Present

Self-employed · Remote

- Multi-Framework Full-Stack: Delivered client projects using **Angular / DevExtreme** for complex enterprise UIs and **React / Next.js** for SEO-optimized, high-performance public-facing websites.
- Backend & API Design: Designed and built scalable **RESTful APIs** with **.NET (C#)** and **Node.js**, connecting to **SQL/NoSQL** databases with clean, maintainable architecture.
- Technical Consulting: Translated ambiguous business requirements into clear technical specs and working digital products — acting as sole architect, developer, and delivery lead.

Network & CCTV Installation — Independent Technician

Mar 2026 – Present

Part-time · Weekends & spare time · Nong Bua Lamphu / Udon Thani

Scope & Responsibilities:

- Survey & Cost Analysis: Surveyed each site, measured cable runs, and prepared a bill of materials with 2–3 budget options (cost vs. coverage vs. equipment lifespan) so the customer could decide with clear trade-offs before purchasing.
- Network Installation: Ran and terminated UTP **Cat5e/Cat6** with **RJ-45**, mounted switches and access points, and configured routers — WAN/**PPoE**, LAN subnet, **DHCP**, Wi-Fi SSID & security, port forwarding, and channel planning to reduce interference.
- CCTV** Installation: Delivered IP and analog camera systems end-to-end — camera placement to remove blind spots, **PoE**/power wiring, **NVR/DVR** setup, storage and retention planning, motion recording, and remote viewing on mobile.

Multita Co.,Ltd. — Software Developer

Jul 2022 – Jul 2026

Full-time · Remote (Udon Thani / Khon Kaen)

Key Responsibilities:

- Full-Stack Development: Designed and delivered enterprise Web Applications using **Angular (TypeScript) + SyncFusion / DevExtreme** on the frontend, backed by **.NET (C#) RESTful APIs** — serving clients in Healthcare, Insurance, and Retail verticals.
- Business Intelligence: Architected large-scale data pipelines and built advanced **Tableau** Dashboards for Cash Conversion Cost analysis, enabling Finance teams to monitor cash flow in near-real-time.
- Mobile Development: Built and maintained Android sales and motor-insurance applications using **Java** (Android Studio).

Notable Projects:

- Sikarin Hospital — HIS Module: Developed complex patient-data management modules within the Hospital Information System using **Angular** + **.NET**.
- IRPC (Energy Sector) — BI Reporting: Led **Tableau** development for executive-level insight reports supporting strategic decision-making across refinery operations.
- TQM & Viriyah Insurance — Motor Insurance Platform: Built high-traffic Frontend for car insurance workflows, handling large concurrent user loads.
- PUMPUI — Android Application: Developed the application using **Java** in Android Studio.

CHAREON TUT Co.,Ltd. — Full Stack Developer (Intern)

Nov 2021 – Feb 2022

Internship · Pathum Thani

- Frontend: Implemented pixel-perfect UIs with **Angular (TypeScript)**, HTML, SCSS) aligned to design specifications.
- Backend: Built server-side modules using **Java + Spring Boot** (MVC architecture) to separate business logic cleanly from data access.
- SDLC Exposure: Participated in the full software development lifecycle — from logic analysis through implementation and QA.
